HOLD ANNUAL COLLEGE PICNIC FRIDAY

Longfellows Plan Two Assemblies For October

NEW FASHION SHOW SLATED FOR OCTOBER

Members Vote To Continue
Derby Day; Will Wear
Hats On Wednesday

Santa Ana's Longfellows, considered the most unique of junior college organizations, today announced plans for two assemblies, the first of which they will present early next month.

With President Doug McAdam presiding, the club voted at its first meeting last week to arrange another fashion show, complete plans for which will be made by a special committee, Carl Bower, chairman; Art Casey and Malcolm Richards.

An invitation to participate in the 1932 Hallowe'en celebration in Anaheim has been accepted, and a committee composed of Al Copeland, chairman; Raymond McCall and Paul Haupt, appointed to look after general arrangements. The club plans to enter its annual bicycle act, which won third prize in the Armistice Day parade here last year.

Another feature of the meeting was the club's decision to continue "Derby Day". Members will wear their derbies to college every other Wednesday.

Honorary Members

The club has extended special membership invitations to Orange county citizens meeting the height requirement of six feet or over. Ray Adkinson, county superintendent of schools; Logan Jackson, county sheriff; Bill Sylvester, politician; E. M. "Sunny" Sundquist and Walter Swanberger, Santa Ana business men, were among the first honorary members selected (Continued on Page Four)

Cervantes Resume School Activities

After a semester of inactivity the club Cervantes will be revived at a meeting to be held tomorrow afternoon at 2:45, in the "Y" hut. Any J. C. students who are taking Spanish or are interested in it are invited to be present.

Following the election of officers plans will be laid for the year's activities which will probably include visits to the Spanish "talkies", lectures by prominent Latin-Americans, etc. The program for the afternoon will include the singing of Spanish-Californian songs and a solo by Senorita Armendariz, together with a talk on the political situation in Spain. Following this light refreshments will be served.

The Spanish club has proved to be a popular organization in past semesters and it is expected that it will have a large membership this year. The purpose of the club Cervantes is to develop a greater interest in the language and culture of our Latin-American neighbors to the south as well as to create an appreciation of good Spanish literature—which explains the choice of name for the club.

College Represents Twenty-three Cities

Out of the 23 cities of Orange county represented in Santa Ana junior college, Santa Ana leads with 434 students attending the institution according to the public files in the college office. Orange with 62, Huntington Beach next with 44, and so on down the list with Garden Grove 26, Tustin 19, Anaheim 15, Costa Mesa and Newport 11, Laguna 8, Artesia 6, Westminster and Bellflower 3, El Modena and Norwalk 2, and Los Alamitos, Doheny Park, Cypress, Fairview, Irvine, Midway City, San Clemente, Buena Park, and Fullerton, 1 each.

Scheduled Events To Come In Next Few Days

Wednesday, September 28—
Press club.
Thursday, September 29—
Alpha Rho Tau.
Friday, September 30—
Associated Students' Picnic.
Saturday, October 1—
Las Meninas. Las Gitanas.
Loyola Frosh vs. S. A. J. C. football.
Sunday, October 2—
Breakfast club.
Monday, October 3—
Service clubs. Bachelors.
Tuesday, October 4—
Shea Shell Social club.
Wednesday, October 5—
Los Gauchos Rush.
Thursday, October 5—
French club.
Saturday, October 8—
Football: Santa Ana vs. San Bernardino.

Y.M.C.A. Banquet Held Monday Eve In New Cafeteria

With sixty men present and many membership cards signed, the Y. M. C. A. met in the new cafeteria last Monday night for its first bi-monthly banquet. Freshmen were guests of the present members and were served free of charge.

Russell Stroup of Balboa was the main speaker of the evening, and used "Striving for Individuality" for his subject. Mr. Stroup presented the idea that young men and women of the present age have upon their shoulders the task of executing new ideas, forms, and modes that arise in their minds. Attendees of the banquet received the talk with much applause.

Following Mr. Straup, Morris Singer, president of the organization, told the group just what were the duties of the "Y" members, and emphasized the fact that it was a group of brothers and not hosts and guests.

In addition to the speakers there was a musical program consisting of two unaccompanied vocal solos by George Farquhar, two piano solos by Earl Motley and Jack Flippen played two numbers on his brass horn. Also the entire group sang some "Y" songs, led by Walter Workman, "Y" song leader, and Ray Archer, "Y" pianist.

Ethics Textbook Made By Students

In order to solve the book buying problem, the Social Ethics class in contemplating writing its own text to be used for class work.

As there is no inexpensive book on social ethics available that will meet the needs of the class, according to the instructor Mrs. Eleanor Northcross, the class is hoping to compile a book that will be applicable to the social situations of the California student and suitable for the use of future classes.

After extensive research by various committees and a thorough discussion by the class, if present plans mature, social ethics material will be arranged into a comprehensive book and sent to the school print shop for publication.

Las Meninas Stages Rush October First

"Las Meninas" will stage their annual "Rush" Saturday, October 1st, at 7:30 p. m. in the home of Miss Genevieve Humiston, faculty adviser. The "Rush" will be the first of the Las Meninas' parties. Miss Helen Bower is president.

Will Hold First Press Club Meet At J. C. Tonight

Ewing Announces Directory
Will Be Ready Soon

Urging all students interested in newspaper study, whether enrolled in college journalism or not, to attend, President Sam Churchill, an active social as well as educational program has been prepared for the coming term, and includes a dance, house party, skating party, visits to several Los Angeles newspaper plants, and a beach party. Edgar M. Flowers, head of the high school and junior college journalism department, is club adviser.

Containing an alphabetical list of the names of all students and faculty members, the third edition of the Press club directory, edited and published by the journalistic organization, will be off the press within the next two weeks, Chester Ewing, editor, announced today.

Four hundred directories will be placed on sale at 15 cents to Associated Student members, 25 cents to non-members, according to Ewing.

The Executive Board recently voted to aid the Press club financially with the publication. Numerous copies were sold during the 1932-33 term.

First Noon Dance Is Well Attended

"Over a hundred and twenty-five students enjoyed the first noon dance in the gym yesterday," reported Roy Wheeler, Associated Student treasurer, when interviewed. He seemed well pleased with the outcome and added: "This initial performance turned out to be not only a social but also a financial success."

Fully half an hour of popular waltzes, one steps, and fox trots were included in the brief diversion from the routine of class work. Some of the revellers passed up their dinners, so as to enable them to attend the dance.

The new Philco radio, which was just installed a few hours previous to the opening number, is equipped to either play phonograph records or the usual stations. The squad of Dons operating the instrument were unable to find a suitable program, so were compelled to rely on the victrola.

According to Miss Helen Bower, social commissioner, an excellent spirit prevailed, and it is hoped that these occasions, will be looked forward to with an idea of social betterment and closer relationship among the associated students.

Three Hundred Students Attend "Y" Mixer In Andrew's Gym

Approximately 300 of the J. C. student body turned out for the annual "Y Mixer" held in the Andrew's gymnasium last Friday evening. All comers were decorated with colored paper bands and divided into groups which engaged in a varied series of contests and games.

All of the students entered into the "get acquainted" spirit of the affair which included general group games, races, and stunts, together with a musical program and refreshments. As the result of a balloon blowing contest, Dean Benton, prospective crooner laureate of the college, was adjudged to have the most hot air of anyone present—Mr. Beeman time-keeper.

The musical part of the night's entertainment included several songs by the trio composed of Martin Bowman, Frank Hare and Bill Fox, together with some solos by Dean Benton and a violin number by Roy McCall. A girls' "clogging team" formed by Letitia Margu, Percilla Shermas, Eloise Schrier and Frances Miller, featured two clogging dances.

Announce Plans For Compulsory Jaycee Assembly

Tuesday Assembly Features
Freshman Law Breakers

According to Dean Fisk there will be four divisional assemblies this semester on October 18, November 15, and December 6, and January 10. The meetings are to be in charge of H. O. Russell of the engineering division; G. B. Holmes of the commercial division and T. H. Glenn, letters and science division; details of the meeting for the education department are to be worked out and announced later.

Mr. Fisk called particular attention to the fact that attendance at all divisional assemblies is required of all members of the student body.

Assembly was held Tuesday in the auditorium with Miner Whitford, Roy Wheeler and Doug McAdam in charge.

The first feature of the program was trials for yell leaders, no decision was made. Following the trials the drama class gave a short entertainment consisting of sketches in pantomime by Dean Benton, Jeannette Lutes, and Eloise Williams.

Most of the program was spent holding a kangaroo court for the benefit of the freshmen. Sentences were passed by the judge with a minimum of delay, in fact it was rumored that they were predetermined. Some of the penalties inflicted were for Dorothy Ensing and Marian Brownridge to indulge in a cracker fight, Ted Meece to give a talk on the good points of J. C., George Farghar to give a rendition of the Peanut Vendor. There were several complaints that this last judgment was unfair as it worked a greater hardship on the court and audience than on the culprit.

New Student Band Calls For Members

Due to the fact that not enough students have signed up for the S. A. J. C. band, S. J. Mustol, musical instructor for Santa Ana city schools, has issued a request for students in the college who can play an instrument to come out and try for the band, and that changes in program to do this will be made free of charge.

The band is a new feature in the school this year, and according to Mr. Mustol will add a great deal to football games and other school activities if it is encouraged and well attended.

According to Mr. Mustol, if some new members are not added, it will be difficult for the present attendance to continue its practice.

New Law Regulates Rush Period Of Service Clubs

A new act passed by the President's club in regards to rushing pledges states that no service club may invite rushes to meetings, parties or gatherings held by the clubs previous to October 1. This affords all service clubs an equal chance to choose pledges from the student body.

In the past, rush parties have been held during the first week of instruction, and this enables some of the service clubs to have an advantage on procuring their pledges.

Music Problem Of Noon Dances Now Being Considered

With relation to the noon dance problem, a committee consisting of Jimmie Quiggle, Helen Bower and James Goodfellow have under consideration many plans for obtaining equipment for the reproduction of music for the affairs.

A plan has been suggested by Jimmie Quiggle whereby the Gauchos will take complete charge of the noon dances, advertising, obtaining a phonograph and arranging for new records, provided that the Gauchos get a percentage of the profit. No official action on the plan was taken. However, the Executive Board decided to try out the Gauchos plan at a future dance.

The committee also has under consideration the purchase of a radio-phonograph which can be purchased for a reasonable sum. It would be operated by the junior college with the board paying for the phonograph and the necessary records out of the proceeds from the dances.

Other plans have been along the line of purchasing the equipment for which several propositions have been submitted by local merchants. The committee will welcome and consider seriously any plans which any student may think up for furnishing music for these functions.

Puppets Present Show Next Friday

In order to raise money for the Student Loan Fund, "The Lost Adam's Diggin's", put on by the Monro Hollywood Marionettes, will present two shows at the high school auditorium, Friday, September 30, and is sponsored by the high school and junior college Parent-Teacher's association. Ann Harding will play the part of Cinderella, the leading lady. Prices are 15 cents general admission for the matinee, and 25 cents for a single person in the evening, or 50 cents per family.

According to information received, these marionettes are much different than the average puppets seen on the stage, as they are really of pleasing appearance and move with the ease and grace of a real actor. Students are urged to see the show for its own merits, but also to help in the raising of money for the student loan fund, said by all to be a very worthy cause, and one that should be of interest to the student body.

Nine Students Pass Late Subject A Test

Nine students passed the subject A examination in room 11 last Thursday, according to T. H. Glenn, head of the English department. Seven failed the test. This test was given for students who entered Santa Ana junior college late.

DANCE, GAMES ARE PART OF J. C. PROGRAM

Urge Entire Student Body
To Attend Gathering
At Irvine Park

Dancing, service club stunts, and outdoor games will feature the program at the annual student-faculty picnic to be held at Irvine Park, Friday afternoon and evening, according to an announcement today by Miss Helen Bower, social commissioner, who anticipated a crowd of 500 students.

Plans, according to Miss Bower, are so arranged to meet with the desires of all students, and several kinds of entertainment will be offered.

Las Gitanas have arranged for the foods, and the Bachelors and Buccaneers will assist them in the serving. The Las Meninas have charge of the entertainment program; the Spinsters have charge of the dance, and the clean-up work will be performed by the Gauchos and Longfellows club. Junior Lions are furnishing the wood for the cooking apparatus.

Following the dinner, a program of skits, sponsored by the service clubs will be presented from the pavillion stage. Immediately following the program the student body will gather as a whole in the pavillion and dance. It is reported that a nine piece orchestra will be present at the park that evening.

All associated student ticket-holders will not be charged for the dinner if they present their tickets. All other students will be charged 25 cents. Dinner will be served at 6:00 p. m. Each student is requested to bring his own coffee cup.

School Broadcast By Frosh Friday

Featuring the freshman class as the participants, according to Eugene Stevens, radio manager, the weekly radio program sponsored by the junior college will be presented over station KREG at 8:30 next Friday night. It is to be a half hour musical program, according to Mr. Stevens and members of the freshman class will render most of the selections.

Last week's program, which was the first of the year, featured Cecil Slaback, accordionist, in a surprise number which he wrote himself, called "Santa Ana Junior College". He also played another number on the program, with Jim Quiggle coming in on the end of the number with a college yell.

Duncan Harnois played some popular piano numbers, and Mr. Quiggle gave a yell at the end of them as with the accordion piece. Following this Jimmie Hall, captain of the J. C. football team, gave a talk on the football prospects for the year.

Tavern Tatlers Plan Lecture Attendance

Members of the Tavern Tatlers and other students interested in contemporary poetry are looking forward to attending the lecture by Robert Frost, eminent American poet, to be given at the Bovard Auditorium at U. S. C. this Thursday evening at 8 o'clock. Any other students who are interested but who have not yet made arrangements to go are invited to accompany them.

The price of admission is 50 cents, but will be cut to 35 cents if as many as fifteen go. Anyone planning to attend should sign up on the bulletin board today, stating whether transportation is needed or can be provided. The party will leave the junior college building at 6 o'clock.

EL DON

"With one aim—to serve student and college."

The official publication of the Associated Students of Santa Ana Junior College, published weekly by that body, and issued on the Junior College consolidation ticket, the price of which includes \$1.00 for subscription to the paper.

Entered as second class matter in the Postoffice at Santa Ana, California, September 25, 1925, under the act of March 3, 1872.

Per Copy—5c Per Year—\$1.00

EDITORIAL COMMENT

When Should Students Cheer?

When do the students yell the loudest? Isn't it when the team is making a good play, or when some individual player runs around end for a good gain? Everyone knows that there is more spirit and more cheering whenever a team is making yardage; But this is not the time that the cheering does the most good.

When Should the Students do the most yelling and give the most encouragement? When your team is on the small end of the score and just can't make headway through the foe's line. It is at this period that the students should get back of the team with their yells and talk-up all the encouragement that is possible. If the boys are having hard luck and the plays won't work, let's Yell; and Yell; and Yell.

Most of the responsibility rests with the yell leaders. If the yell leaders will get a lot of pep and show some personality with the crowd the students will stand back of them and support them loyally.

We have two new yell leaders and we wish them the best of luck in the coming football season. We feel confident that the student body as a whole will stand behind all the plans which they make.

Let's work up lots of spirit and show the townspeople that we have a real school and that we appreciate the things which the school does for us.

Saturday night is the first chance we have to show the yell leaders what we can do and the first chance for the students to see what you yell leaders are capable of doing. Show that old spirit and support the team.

Junior College Growth

Junior colleges in the state of California have increased their enrolment rapidly in the last few years due to the fact that that students are realizing the advantages that these colleges offer for lower division work and for terminal courses. Our own junior college has greatly increased in size.

Some students are prone to complain about the crowded conditions of the halls and classes. Our college has shown a liberal attitude in allowing students to enter after the quota for the semester was filled. Instructors are showing their true colors in the way that they handle the large classes. These students who complain of these conditions should join with the administration and faculty in showing the real Santa Ana junior college spirit of cooperation.

In the after years you will look back upon these opening days of college and smile in remembrance of those inconveniences.

Football To Be Light Activity?

From the spotlight to the arc light is a step in the light direction one must admit.

For the first time in the history of the college it's football team meets its adversary Friday night on a field brilliantly lighted with electricity. It is an innovation which should bring out every loyal Don. It should be the big night out for us all.

Little did Thomas Edison imagine when the first light was switched on, that it would some day be used to make the game of football even more enjoyable than it ever had been before.

With lots of light, lots of fight, Saturday night's game should be another football fiesta for the Dons.

Are We Including Ourselves?

How often have junior college student bodies been criticized for not having much school spirit, that feeling of unity of purpose and loyalty to the alma mater which is so prevalent in the four-year institutions. Perhaps this criticism is sometimes just, but whenever anyone attending a junior college makes the complaint he should be reminded of the following story:

It was but a few minutes after five and the street car was crowded, as are all cars shortly after closing time in the great industrial centers. The careless crowd was pushing and shoving. The straphangers were jostled back and forth irrespective of sex or social position as is customary in the urban car. Suddenly a woman turned to the man standing beside her and said, "Ain't the public awful!"

The man she had spoken to replied, "Madam, we are the public."

Let us remember, therefore, you, everyone of you, are the student body.

TUNING IN.

Kathryn Sumner, Dialer
One Year Ago This Week

"Love is a controlling feature in our lives", is a phase of the discussion that was held last Thursday. The next discussion will concern "Idealism in Love."

With "Ships and Wheels" as a central theme, the Santa Ana Y. W. C. A. has planned an interesting series of programs to be given at the bi-monthly pot-luck suppers, in the "Y" hut.

Speaking on the subject of "Why Go to College," Dr. Geo. Warner was the featured speaker at the Young Men's Christian Association banquet held at the city "Y" Monday evening.

Social activities for L'Hotel de Rambouillet, college French club, will begin tomorrow afternoon with a tea to be served in the "Y" hut.

Plans for a rally to be held in the little gymnasium on Thursday, October 1, at 2:50, were formulated by members of the W. A. A. executive board at their first meeting on Thursday, September 24.

Settings for "The Fool" are being executed by Don Abbott, junior college stage manager.

Coach Bill Cook is still issuing a call for more men out for football. Green material is readily accepted.

AGONY COLUMN

This column is entirely devoted to those blighted sinners who have honorable complaints to hurl at man or beast, i. e. college students.

The sob sister, Big-Hearted Helen, will gladly give her careful consideration to your pressing personal problems. Just write, phone, telegraph, page, or yell for Big-Hearted Helen, care of El Don.

Dear Big-Hearted Helen:
I'm taking Dumb Psychology, dumb English, have an exceptionally wretched course, and my girl says I'm impossible. Please lend me a mite of your invaluable advice.

A Frank Frosh.

Dear Freshie:
Just get hold of Douglas McAdam and hand over your mutual troubles. Merely,

Helen
Agony in the first degree: Sitting in front of a person who has already seen the performance, knows the author by his first name, rubs elbows with the manager of the theater, and then proceeds to unload said info upon the chum in the adjoining divan.

It is alleged that our own Gene Hall is as self-conscious as an old maid school teacher in a one piece bathing suit.

Simile—As tense as the air in the room just after Adam Lehr has raised his partner's one no trump to seven spades!

Famous Last Words: "Mr. Nealley, is life just a bowl of cherries?"

ONE BETTER

A good lesson in perseverance and patience was related recently:

The owner of a certain steel manufacturing company, to show a friend in a Swiss steel corporation how competent his employees were, had a steel wire made and milled down to 1-120 of an inch in diameter, and he sent it to his friend.

For weeks he waited for a response from his friend and was very much disappointed when he received no answer.

One day he received a box. On opening it, he found a block of steel with an upright on each end. In the middle of the block a microscope was set in position. His mind filled with wonder, the man gazed into the microscope. Fixed below was his web-like wire, and through the center there had been drilled a neat round hole. No message was needed with that bit of evidence.

Frosh: I think this school is haunted.

Ditto: Why?

Oh, they're always talking about the school spirit.

Mr. Glenn: "Amo" is the Latin word meaning "I love". Now, what word, do you suppose, means its opposite?

English X class: Reno!

Her man: I'll bet the USC Frosh kick off.

His'n: Why I didn't even know they were sick.

FEATURES

BORED SHAVINGS

BY MARTIN BOWMAN

Now'd be a good time f'r th' doctors t' bring out a line of moderate-priced diseases.

Dante Siracusa, past (not forgotten) Associated Student president, was seen in the hall shaking hands with such notables as Mr. Hayden. Dante, it seems, was having his last, long look at the pleasant faces and halls of his former stamping ground. On to Stanford, Dante!

Believe it or not, (apologies to Ripley) Santa Ana college has a budget. Although our budget has a tendency to run in the red, a suggestion has been made to the effect that a bankruptcy sale of all slightly used cars about the campus be held. Such a sale would bring the college budget high above its present standing, and would relieve traffic congestion.

A little smile, and a hello, go a long way in making our lives happier. Say hello and smile! It is free!

Mr. Fly has put in his appearance a little early this year. We must give such a busy working body a little consideration, but when Mr. and Mrs. Fly, and all the children begin playing button, button who has the button on our text or vitamins, don't you think it is time to call for Henry?

Earl Homan has been discovered by several great scientists as being a promising hypnotist. Dr. Holman used his power on Bert Winslow and had the patient practically under his power, but Bert's will power proved to be strong enough to bring himself back to natural thinking.

Bert admitted that he was beginning to go under. (Quote): "I began feeling dizzy."

It's a grand and glorious feeling. Try it sometime!

Wanted: Racing drivers to drive their cars in a daily free-for-all race. The location of the track extends between Parton and Ross streets respectively. If students are to use said runways without officials, why not make such alteration necessary and let the fiery steeds bang, too, and rattle up and down the driveway? Before many minutes all cars would be hauled off to the junk yard, and a lull of quietness would be extended over our campus.

BOOK NOTES

Mr. James Branch Cabell in his last previous book said in an epilogue that it would be the last to be published under his name, as he had passed fifty years of age and an author that old could do nothing more than repeat what he had already said, in a less charming and forceful way.

Within two years after that statement he wrote and issued what is to date his last work. This book, entitled "These Restless Heads", is a trilogy of medium long essays, more or less loosely connected. They leap from whimsy to seriousness and back again. They are throughout most charming—in a manner that only Cabell can do.

In the volume, about average size, Cabell covers in his inimitable way several subjects. He starts, waiting for the postman and creates some delightful humour on that arid theme, from this he goes, quite naturally, to the many letters that fall to the lot of all authors. In this phase—still in a humorous vein—he discloses some of the many and peculiar sides to human nature.

MARIONETTES MOVE

More than 3,000 years ago Marionette shows were given, yet during the last two years there has been a tremendous revival in interest, and authorities predict that Marionettes will still be strutting their stuff long after movies are dead and forgotten.

Seventy-five percent of the American universities and colleges now have marionette departments. A Marionette show is the only show on earth outside of a circus that has a universal appeal. The reason for this is that it is the only art that includes all the arts, music, painting, drama acting, stage craft, sculpturing, lighting, designing and mechanics.

The Monro Hollywood Marionettes, with their cast of fifty artful Marionettes, many of them real portrait puppets of famous movie stars, are coming to the high school auditorium, October 30. The proceeds from this performance, which will be sponsored by the high school and jaycee Parent-Teacher's Association, will go to the Student Loan Fund.

This production had its beginning in a quaint little theater in Hollywood, where many of the stars came in person and posed for Miss Monro Augur, the sculptor who heads the production and creates the puppets. The fame of the little theater and the Marionettes stretched across the continent. Requests asking for local appearances have been the inspiration and encouragement necessary to start a transcontinental tour.

Santa Anans will be among the first to witness this remarkable performance. Two shows will be given.

The 3:15 matinee will consist of an unusual production of the popular fairy tale, Cinderella, and several special vaudeville acts. The evening show, "The Lost Adams Diggins" is a romance of a legendary mine in a setting of the forty-niner days. Five snappy acts of vaudeville will complete a program that should interest young and old alike.

AROUND THE CAMPUS

By Harpo

Noticed Aileen (I love a mustache) Adams walking to school this morning. Everybody pretend that we don't know she and the boy friend ran out of gas (?) the other night.

Tom (Savoldi) Kistingner seems to lose his razor every three or four days.

Who was the certain girl seen ducking out the side door of the college with a boy not the boy friend? (If isn't fair to mention names but where was Rachael Lamb?)

Has everyone seen Al (V-8) Forcely's new Chevrolet?

Marvin (lawyer) Honer seemed to be enjoying himself at the game Saturday. Who was she Marv?

At last! It has been discovered where all the good looking co-eds go during the noon hour. Look in the cafeteria.

It seems funny that a blue and cream Dodge is usually parked near a tan and orange Chrysler.

Did you know that Verna (Schumann-Heink) Helm won the recent Atwater-Kent audition for this section?

With malice towards none, This is all written in fun.

STRANGE

Believe it or not but Santa Ana junior college has enrolled in it's student body students from 13 states, count them and shiver, 13. The number 13 is usually considered of unlucky portent but it is hoped that this time it has lost its evil potentiality.

All sections of the country are represented, there are two from the east, five from the south, 11 from the middle west and four from the north west.

Tabulation by states shows Iowa in the lead with four from that land of tall corn. Illinois and Oregon run a close second with three each and Texas, Kansas and Pennsylvania stepping on their heels with two apiece. The rest of the 13, New Mexico, Ohio, Utah, Oklahoma, Mississippi and Nebraska come trailing along with but one each to their credit.

From its own state, California, the college draws attendance from one end to the other.

STUDE SUGGESTION

Do you know your girl's phone number? Why don't you? Or any girl's number, for that matter, and her address, middle name, and maybe how many shot guns her father has. This is how you can find out all this information. Buy a Student Directory. The little book that sees all and knows all. Only 15 cents for smart students, that is those who have Associated Student tickets, but the Press club will let the other students have one for 25 cents.

And there is another nice thing about the directory. When hallowe'en time comes you can find in this little directory the addresses of your dear teachers, and how to call off their savage dogs, maybe. Also you will know where to send flowers and candy just before exams.

Chester Ewing is editor of this indispensable booklet, and to show that there will be no fooling around with disinterested students, there will be only 400 copies printed, so that you have to come early and avoid the rush. Announcement will be made when they come out, then run for your copy.

NOTES

Socrates was born—oh, gee, she's way ahead of me now. Why there's Marie; I wonder how she got in this class. Athens was in Greece—I must find out the name of the boy next to me.—Such hair!—And can he take notes!—Wish I could copy them—oh, if I could only do that good!—Plato was a young—She's sure a good lecturer. Wish I could keep up with her. Heavens, I should have brushed my shoes this A. M.

Wonder if Jack will meet me at noon.—He's such a sweet kid.—Why-oh-Why didn't I eat breakfast?—I'm just starved!—Now she's talking about Plato.—Well, here goes—Plato left Athens because—Aw heck, now she's back to Soc.—There goes my pencil.—Guess I'll have to borrow the notes.—Why didn't I stay in high school where I belonged?

DONS DOWN TROBABIES

To Hold Bowl Game Saturday Nite

Dons Encounter Loyola Frosh In Night Contest Sat.

Loyola Freshmen To Invade Santa Ana For The First Night Game Of Season

Santa Ana junior college Don's inaugurate their first night football game in the Santa Ana Municipal Bowl, on the Saturday, October 1st. With one victory already this season to their credit the Cookmen will encounter their next battle with the Loyola University Freshmen. The Don's gave Coach Bill Cook some fine material this year and from the previous engagements Cook has demonstrated what he has done with the material provided him. The team has greatly improved since the beginning of the year and the chances for an all conference championship team looks very promising.

Coach Cook has put the boys through some very tough workouts since the game with the University of Southern California Frosh on last Saturday. The team at that time looked very good, but Cook has some corrections to make. With the result of the game with the Frosh the public has a little idea of what to expect from the Dons this season.

Cook's men have all been drilled on the latest and best football that there is and at the present time he has about three men for every position and all of them fighting to gain a place on the regular team. If the boys keep on improving as they have in the past few weeks Coach Cook should have about three teams which will be interchangeable.

This night game which is to be sity Frosh are greater in number than the Dons, but even with the odds against the Cookmen, they will fight to win another game from a larger school team.

This nigh game which is to be played on Saturday night at the Santa Ana municipal stadium, will be the first game of its kind played in the city. The entire city is back of the movement for night football games and the city officials are doing all in their power to promote great interest in such events.

There has been a lot of work done on the new stadium to permit the

Many Prep Stars Were In S. C. Line Up Against Dons

When the Dons trampled the "Trampling Tro-Babes" last Saturday they were up against the smartest aggregation of individual stars that Southern and Northern California could produce. Among the sixty-odd men out for the Yearlings, the leading all-star prep men are Ken Karelius, all-Foothill fullback from Muir Tech.; Ralph York, all-Valley guard from Taft; Tom Ryan, all-City end from Roosevelt high; and Jack Houlgate, all-Foothill guard from Muir Tech. This turn out and others, including Rod Cameron of Alhambra who gave the Dons a last quarter scare, were busy for a long time this spring learning the intricate Jones system that involves end-around plays and reverses, and hope to end rather high in the winter rating.

teams to play there, with the greatest of ease and to allow a capacity crowd view the game. Additional lights have been installed so that the entire field will be lit up allowing the players to see the ball no matter what section of the Bowl it may be in. Many seats have been fixed so as to allow the Santa Ana junior college students the best of seats and there are sufficient seats for many people.

The city of Santa Ana is willing to have the junior college football games played in the new stadium, and if this is done it will not cause conflicting dates with the use of the Santa Ana high school field. If these games turn out to be a success there will be many more played on the new field. If the public likes night football games then the city will allow the Santa Ana junior college to play there whenever the occasion is proper.

There is one draw back to playing in the new bowl, and Coach Cook rather regrets the fact that there is no turf on the floor of the new stadium, just plain old terra firma in the raw, and it may be rather hard landing for some of the Loyola Freshmen. Coach Cook has been promised by the city that if this game is a success there will be a fine turf placed in the City's coliseum.

There are at present about 3,300 good seats on the playing field and about another 1,000 which afford good vision.

The coaches of the school are very much in favor of this new playing field, for it adds many more advantages to both the junior college and the high school.

When the new field is completed and the turf and additional seats are placed within the new bowl this field will be the most complete and most satisfactory night field in the state.

Night football is new to the city of Santa Ana and to the players of the Santa Ana junior college, but it is hoped that the night games will be appreciated by both the students and the townspeople.

This night game is listed in the Associated Students ticket and everyone should turn out to show the city that the things they do are appreciated by the student body as a whole not only by the coaches and the players. After all is said and done it is the student body that receives all of the benefits, both financially and socially.

All players that have been injured during the past games and scrimmages will be able to be back in suits and will be of great use in this game with Loyola. Jimmy Lash who had a broken nose after the scrimmage with Long Beach Vikings is again in suit, Captain Jimmy Hall whose knee has been injured for the last week has been out on the field again and will be ready for the game with Loyola.

With all of the team in good form and the players eager to go, the night game should be one of the most interesting entanglements of the year.

The Chicago Cubs and New York Yankees have never competed in a World Series contest.

SPORT TIPS

BY AL FORCEY

Bouldin Returns

Bill Bouldin of Anaheim returned to the Padre line-up after having turned in his suit because of the scarcity of employment in our metropolis. It seemed that all the jobs that were offered, couldn't be done sitting down. Bill finally found one keeping squirrels off the Santa Ana nut crop—well anyway—this wasn't told to me I only heard.

Fight! Fight! Fight!

Severe critics still say pep and fighting spirit never wins any games. Yet we were shown last Saturday several instances disproving this. Our own "Almie Mamammy" used more than their share of that "ol' stuff" holding the Tro-Babes away from those good old thirteen points. Even at that they hardly looked to be enough. Up north, too, Clipper Smith's boys fought out a well-earned victory over the California Ingramites, who, everyone thought, were the next national champs.

Revenge Ah—ha

Coach Chuck Winterburn seems to be taking out his revenge on rival teams for his drop to the Indian Frosh coaching position from assistant varsity coach. It seems Chuck and the Indians couldn't get along. Maybe Charles tried to use some of his gentle encouraging methods on the Tribesmen who didn't take it in the same kindly fashion the local boys used to when Winterburn coached here. His Yearlings recently defeated Taft J. C. 66-0.

"Burly" Grimes was certainly done

a favor by the Card club when they traded him to the Cubs. If they had not he wouldn't have received his cut in the world series money.

The most interesting thing about Santa Clara's victory over Cal. was that the Bronc's played straight, hard football.

Flashy Warburton

The crowd at the Utah game got a kick out of Cotton Warburton. If anything definite can be told of early season performance you can be assured that a lot more will be of this flashy towhead. He probably will become more popular than the galloping "goat", Orv Mohler.

Cubs vs. Yanks

Although the Yanks may have a slight edge over the Cubs in classy players, it wouldn't surprise a lot of people to see the Chicago club come out the best in the race. The Cards did the same last year because they have that "old will to win".

More Football

If California accepts annual St. Mary and Santa Clara competition, there is no reason why other colleges should disregard them by claiming "different standards of eligibility". Underneath there is not really much difference. Be big, fast and strong—and tough, and your education takes care of itself.

Athletic "farming" has not been limiting itself to baseball. All over the country "big shot" colleges are taking junior colleges under their wings for supervised training of prized "beeves".

The only time the Cubs and White Sox clashed in a World Series was in 1906.

Basketball Rally Will Be Held In "Y" Hut Today

There is to be a basketball rally in the "Y" Hut this afternoon for all those girls that are out for the basketball teams.

This rally is to be sponsored by the W. A. A. board and is for the purpose of getting better social life as well as athletic benefits from such sports.

Everyone out for basketball is urged to attend this rally, which is given for the betterment of the women's athletics in the college. Everyone out in the "Y" Hut at 3:00 o'clock and have refreshments and a program.

WILLIAM TELLS

BY BILL KISTINGER

When the Santa Ana junior college men beat the Frosh at the coliseum Saturday, it was the second time they had been defeated in four years. It was Coach Cook's men that held them to a 0-0 tie a long time ago and that happened to be the first time they had even been held to a tie. Congratulations, Coach Cook.

The last world series game that ever ended 1-0 was in 1923. The New York Giants won this contest over the New York Yankees in the third game. Nehf for the Giants and Jones for the Yankees were the exceptional pitchers.

Did you know that the New York Giants tallied thirteen times in the third contest of the 1931 World series with the New York Yankees, which is an all-time record for most runs scored by any one club in any single contest.

Not many people know that eighteen runs is the high mark for two teams in the World Series contest. That happened in the fourth game of the 1929 contest.

W. A. A. Board Holds Luncheon Meeting

The executive board of the W. A. A. held their first meeting Monday. The meeting was at noon and in the form of a luncheon for the new officers of this term. Plans were made for a tea and basketball rally to be held on Wednesday of this week. Hazel Spencer and Shirley Day were nominated for the office of treasurer formerly held by Miss Mary Jane Dodd. As Miss Dodd is not returning this semester the office was left open to one of these girls.

Those present at the luncheon were the Misses Ernestine Wakeham, president; Helen Bower, vice-president; Florence Turner, secretary; and Zena Leck, adviser.

This board is to be in session for the rest of this term and then a new board will be elected by the vote of the women of the student body.

Baseball Notes

The first four shutout games registered by pitchers in World Series play ended by scores of 3-0. To date there have been fourteen world series contests won by scores of 3-0.

Fullerton Ties Pasadena, 6 - 6

The fray with the Fullerton Yellowjackets and the Pasadena Bulldogs ended in a 6 to 6 tie. The game was led through the first three quarters by the Fullerton Yellowjackets. Coach Art Nunn's men got off to an early lead and held it throughout the majority of the game.

The last few minutes of the game Coach Frank Baker's men ran through the Yellowjackets for a tally. Both teams were bad on conversions. From all appearances the Fullerton team had the advantage throughout the game.

Girl's Basketball Practice Progresses

Girls basketball practice has been in full swing for about a week and there are many teams now being formed. There is need for many more players.

This year there are two teams for both Freshmen and Sophomores. These teams have games between each other which affords great competition.

Those who are out for the teams so far this season and have reported for practice are: for the Freshmen: the Misses Phyllis Cole, Madeline Seary, Irene Boyer, Josephine Norton, Alma McDonald, Betty Stork, Grace Warner, Joan Buell, Gladys Palmiter, Margaret Cox, Mathilda Blankmeyer, Helen Harper, Ruth Crowl, Jean Rockwell, Mildred Johnson, Evelyn Furtch, Elizabeth Downie, Marian Brownridge, Barbara Copeland, Margaret Haefner, Kathryn Bement, Al-line Buck, Francis Miller, Ardith Parham, Dorothy Tedford, and Josephine Derigo.

Those that reported for the Sophomore teams were the Misses Irene Ross, Margaret Guard, Frances Curl, Florence Dalton, Betty Walker, Ruth Souder, Ruth Juhlin, Helen Mott, Harriet Anthony, Lucille Harper, Audrey Teel, Ernie Wakeham, Mary Helen Bell, and Bonnie Kiser.

There is lots of room for other players and there should be more out. If you like the game come out for good exercise.

Girl's Swim Team Resumes Practice

Swimming practice has started and there are to be many teams chosen from those that are out. There will be teams for both the freshmen and the sophomores as well as a team for the school in any of he meets with

Sensational Aerial Attack Successful As Dons Victorious

Santa Ana Junior College Dons Defeat Trojan Frosh By Six Points

Don sport history has been added to, and Coach Bill Cook's 1932 Santa Ana junior college football edition has immortalized itself, by defeating the Tro-Babes of U. S. C. at the Coliseum last Saturday by the score of 13 to 7. The Dons are the second J. C. team in history to accomplish this feat.

With the aerial team of Welty, Carlyle and Higashi as a spark plug of a marvelous offense drive, the Padres scored twice in the first half and then held the yearlings to seven points the rest of the game. This is the first time a J. C. eleven has been able to score more than one touchdown on the S. C. freshmen.

Coach Cook's inspired team was on the offense the whole first half with Welty throwing passes to all corners of the lot. The first score came just after the start of the second period on a twelve yard pass, Welty to Carlyle. The second followed in the same period on a five yard jaunt around end by Welty after the ball had been worked down that far by some fast aerial work.

The only Frosh score came in the final quarter with Rod Cameron, who replaced Probst at quarter, engineering the feat. Cameron is the same gentleman that played for Alhambra nigh last year.

Tom Carlyle was undoubtedly the hero of the hour. After getting off to a bad start by dropping a long pass with a clear field to the last stripe, Carlyle redeemed himself by snagged passes out of no where—as it seemed to the fans. For the first Don score he nabbed one that seemed to bounce around among a group of freshmen for several minutes before young Carlyle reached up and pulled it in. Welty added the extra point. This same Welty also added several, large gains to aid the Don running attack—one for nine yards and another dash of fifteen.

With the start of the second half, Santa Ana, satisfied with their lead, went on defense and held the mighty Tro-Babes to a solitary score. Good work was done by the line who dug in and held off a last minute desperate attack by the Frosh.

Although the J. C. line passed all pre-season expectations it is still weak defensively. The ends were very weak in getting down under kicks, but acted well on defense. Conkey, Williams, Koral, Fredericks and Handy were the most outstanding linesmen.

other schools. Mrs. Foote calls for more members for the teams, as there are comparative few out at the present date.

Looks Like Good Football Year!

You know, things look pretty good around Santa Ana! Both the Dons and Poly High are surely going places this year in football. We never saw such vitality in school spirit.

AND—business is better, there is considerable improvement in everything. Your parents are going to feel better this year.

Looks like a good year, doesn't it?

Y.W.C.A. Meeting Staged Last Mon.

Freshmen girls were guests of the Y. W. C. A. at their first meeting, a pot-luck supper given in the "Y" Hut, on Monday evening, for the purpose of introducing the new girls into the atmosphere of the organization.

Addressing the group on the history of the Y. W. C. A. movement in this school, Mrs. Jennie L. Tessmann told of its organization by Elizabeth Brunner in 1920 and of the raising of \$7,500 in 1921 for the construction of the Hut. The necessary money for constructing this meeting place was obtained through generous cooperation of the Santa Ana people, and the building was completed and dedicated in 1923. Mrs. Tessmann stressed the fact that the Y. W. C. A. is mainly for the purpose of furthering friendship among the girls.

The Y. W. C. A. cabinet has made plans for conducting the ensuing meetings on the basis of interests. That is, the organization will be divided into three groups. The Arts of Living, The World We Live In, and Philosophies of Life—each member joining the one she prefers. Each group will discuss and work upon subjects which come under the topic it is interested in.

After greeting the guests, President Katherine Chapman opened the business meeting by introducing the members of the cabinet. They are vice-president, Evelyn Fairley; secretary, Elizabeth Palmer; treasurer, Carol Harper; program chairman, Kathryn Bement; world fellowship, Mary Edmunds; social, Lena Danner

Botany Has Largest Classes In History

With 69 students registered in the two botany 1A classes, Mr. J. Russell Bruff, instructor says that this is the largest number of students that have taken botany in the history of the course in Santa Ana junior college.

Mr. Bruff attributes this rise in classes to the fact that he has changed the course from a 5 unit to one of three units, and leaves much of the technical botany to the second year.

There are two sections of the class, one with 25 members and the other with 30, while the capacity for the botany laboratory is limited to 48 students.

The classes are studying cultivated plants at present, and will do so until December, when they will start on algae and fungi. In the spring the classes will study wild plants and flowers.

The zoology classes also taught by Mr. Bruff, have been decreasing in size the last three years, due according to Mr. Bruff to the fact that the botany course was made easier.

and Eileen McCallum; social service, Evelyn Richardson; publicity and student representative, Gertrude Chapman; house and grounds, Katherine Robbins; ways and means, Virginia Warner; worship, Dorothy Ensign; book sale, Betty Vorce; pianist, Mary Nale; advisers, Mrs. Jennie L. Tessmann, Miss Dorothy Decker and Miss Mabel Whiting.

Doings Of Other Colleges Recorded By Don Reporter

Curtailling the cost of high priced dances, elaborate dinners and other social functions has resulted in a saving of \$273,000 for students of Indiana university.

Plans are being made for the sixth presentation of the "Passion Play" by students of Santa Clara University this spring.

Boasting the largest enrollment of any junior college in the United States, Los Angeles J. C. has an enrollment of 4,438 students. This record was held by the Crane junior college of Chicago last year. It is expected that the final enrollment will come near 5,000.

Compton J. C.

The various sports will be run off in the same sensational manner as they were last year, the basketball season runs for seven weeks, beginning September 19. Tennis from November 7-23. Volleyball follows from November 28 to January 13. If it doesn't rain too much, hockey season will be from January 25 to March 24. Everyone will remember how the hockey games last year turned into regular water polo games due to the heavy rains. Baseball is the final season and will be from March 27 to May 19.

The tennis season is an added feature this year. There will be an interclass tournament right after basketball season. There will not be time for practice between events so the play-offs will take place early.

The game of la crosse is being introduced at the Los Angeles J. C. as an additional part of the physical training. The game owes its origin to the Indians who used it as a means of obtaining entrance to the British forts.

Because of the shortage of funds necessary to cover transportation expenses Ventura University has been obliged to withdraw from its Western grid entry.

Statistics collected at Michigan state college show that the co-eds eating expenses can be cut to 10 cents a day, a reduction of 20 cents over last year. The minimum for men students was found to be slightly higher.

Santa Monica J. C.

Head Coach Charles W. Brown has issued a call for cross country runners. A meeting will be held during this week. All candidates are urged to turn out. In addition to the cross country runners, Coach Brown would like to have all the track men who expect to compete in distances over the 220 yard dash report to the meeting.

Although it will be sometime before the cross country runners will go

into action a strenuous training season will be necessary to round them into condition for the long races. The cross country distance is about three miles over hill and dale thus making a good physical condition of the athletes essential. There will be several for the corsair harriers, most important of which will be the Southern California Junior College Association meet. The Corsairs placed second in this meet last year.

Johnny Kellog, Frank Prior, and Lewis Rango are lettermen returning from the team that did so well last year, others are expected to come out and make another strong cross country team for Santa Monica junior college.

No women student of John Hopkins university will be allowed to take part in any activity of the campus following a vote of the undergraduate council after many complaints had been received from students, faculty and alumni, because the editorship of the college magazine was held by a woman.

Marking a great stride forward in cultural education for the southwest the new \$1,000,000 Edward L. Doheny, memorial library was dedicated at U. S. C. recently with appropriate ceremonies which were attended by many dignitaries, including Governor James Rolph Jr.

Designed to train men and women for federal, state and county detective positions, Los Angeles junior college is offering a peace officers course. Students who enter for the course must meet all the physical requirements of the Civil service commission.

Hungry students of John Fletcher college, Iowa are suspected of conducting a cake rush in an endeavor to unearth the untouched cake buried by last year's senior class. It is reported that scenic spots on the campus have suffered because of their enthusiastic digging.

Would you like to see intercollegiate football abolished from Chicago university? was answered in the affirmative by 51 per cent of the faculty of that institution.

A week from tomorrow Compton junior college will tangle with the U. C. Yearlings in the annual non-conference big game of the Tartar schedule. Each year a victory over the Babes gives the Tartars as much recognition as a conference championship. The Frosh are still nursing a 7-0 trouncing which they received at the hands of the Compton Pigskin Pushers last fall, and Stan Williamson, who is coaching the Freshmen, hopes to turn tables and revenge it.

Only 500 Student Directories are to be printed. There are 806 students enrolled. 450 of these are Associated Student Ticket Holders.

Engineers Devise This Year's Plans

In the first meeting of the junior college chapter of the American Association of Engineers held at the home of the president, Dick Pinkerton, Tuesday night, plans were formulated for the coming year's work with a proposed trip to Boulder Dam as the main feature of discussion.

The plans already divulged indicate that the club intends to carry on its educational work instituted with the formation of the chapter last year, the trip to Boulder Dam being the first effort of the new year.

The second meeting of this year will be held tomorrow night at which time the decision will be made on the trip and further plans will be made for the year.

The Engineers Club which was formed last year was founded by many of the present members under the direction of Aldon Melzian who later brought the club to membership in the Junior American Association of Engineers. The club's work will be remembered in its performance of experiments with a dynamometer, constructed by members of the club, at Fiesta Day.

Chairs Purchased For College Needs

Twenty new chairs and 40 used ones have been procured by the S. A. J. C. to take care of the new influx of students this year. All of the chairs have been placed in room 215, and those already in that room have been put temporarily in the College Hall, room 11, to be placed wherever needed throughout the year.

The 40 old chairs were brought from the school board headquarters, where they have been in use for several years. Also some used desks were brought from the board.

Receive Offer To Form New Society

In a letter from Dario Robinson of the Gamma Delta Upsilon membership committee to Eugene Robb, editor of El Don, the local junior college journalists have been invited to form a Santa Ana chapter of this honorary college newswriters society.

Gamma Delta Upsilon is a fraternity formed by the staff of the Los Angeles junior college "Junior Collegian" and was formed in an effort toward further cooperation and a better understanding of the work of the various staff members.

It is indicated in this communication that the fraternity is rapidly extending its work to other junior colleges since Fullerton established a Beta chapter of the society a year after the formation of the mother organization. It is further shown in the letter from Mr. Robinson, that several northern colleges are contemplating an entrance into the society which would make it a state-wide institution.

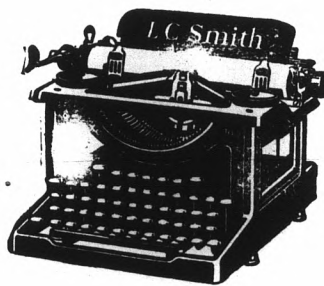

Longfellows Vote For Fashion Show

(Continued From Page One)
by the club. John "Sky" Dunlap, former president, and George Farquhar, junior college midget, also will be considered honorary members, according to McAdam.

New Officers

Newly-elected officers of the club are Paul Wright, secretary and Art Casey, corresponding secretary. Charles Warner was chosen vice-president last June.

Members present at the first meeting were President McAdam, Art Casey, Chet Cook, Carl Bower, Paul Haupt, Burton Alloway, Russell Harrington, Paul Wright, Al Copeland, Ray McCall, and Adviser, Milton V. Newcomer.

**CLICKITY - CLACK CLASS!
RENT A LIKE - NEW
TYPEWRITER!**

A Famous Tiernan Rebuilt Typewriter at 2 months for \$5

Business men buy Tiernan Re-built typewriters just as readily as brand new ones! Because they ARE like new. And these are the keen typewriters you can have this year at special students' rental rates! Not an ordinary run-down rental typewriter, but one that gives you new-machine practice!

And you can BUY these typewriters on special monthly terms; they'll last for many YEARS, not matter how abused.

The Smith Corona gives you standard typewriter performance in a LIGHT typewriter. We have portables as low as \$19.75.
